DESCRIPTION

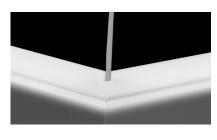

Patent Pending

Openness and clean lines define the aesthetic of E1-I. It uses mid-power LEDs and a high perform-ance optical design to spread light evenly, yielding a comfortable and energy efficient design. E1-I uses 0-10V dimmable drivers, is easily serviceable and available in an array of configurations to meet the specific needs of the designer. This Product is enrolled in the International Living Future Institute (ILFI) Declare 2.0 Program and is third-party verified with options achieving Declared status.

DIMENSIONS/LIGHT ENGINE:

E1-I uses mid-power LEDs evenly distributed and paired with a precise diffuser to eliminate pixilation from viewable angles.

CONDUCTIVE CABLE:

Thin conductive cables bring power to and suspend E1-I, yielding a luminaire that appears to float in the space.

TOP GLOW™ DIFFUSER:

The diffuser provides a uniform glow above the luminaire for a clean architectural element.

| 3000K | 0.746 | | | |
| 3500K | 0.760 | | | |
| 4000K | 0.789 | | | |

Apply a lumen adjustment factor to calculate lumens for the desired CCT and CRI.

SAMPLE LUMEN ADJUSTMENT CALCULATION

Standard Output (S), 4000K, 90 CRI

Lumen Adjustment Factor = 0.789

Total Light Output = 1900 lm x 0.789 = 1499 lm

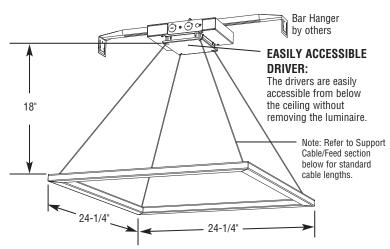

$$Efficacy = \frac{1499 \frac{lm}{ft}}{14.6 \frac{W}{ft}} = 103 \text{ Im/W}$$

E1-Indirect (E1-I) Configuration

EASY INSTALLATION:

Specially designed mounting hardware and a unique canopy design makes E1-I easy to install and maintain. Designed to mount cleanly in the center of ceiling tile or sheetrock ceiling.

STANDARD CONFIGURATION DIMENSIONS

SPECIFICATIONS

CONSTRUCTION: Precision cut 6063-T6 extruded aluminum body with mitered corners. Top Glow^{TM} diffuser snaps into place and is easily removed for service.

UPLIGHT DIFFUSER: The Top Glow[™] diffuser is frost white standard, 89% transmissive, 99% diffusion. Coupled with light engine design, the diffuser spreads the light evenly for enhanced ceiling uniformity.

LIGHT OUTPUT: Four lumen packages available, Standard (S), Boosted Standard (B), High (H), and Very High (V). A separate chart summarizes lumen distribution and wattage. Light engines are replaceable.

LIGHT ENGINE: The light engine is made up of high performance mid-power LEDs and is designed to distribute heat properly to maximize the life of the LEDs and the driver.

LUMEN MAINTENANCE: 90% of initial light output (L90) at 100,000+ hours; 70% of initial light output (L70) at 200,000+ hours.

DRIVER: Replaceable 120V/277V Constant Current Reduction dimming driver standard. Can be wired dimming or non-dimming. 0-10V dimming controls with a range of 10%- 100%. Dimming to 1% available;

consult factory. Driver is fully accessible from below the ceiling. Power Factor: 0.9. Total Harmonic Distortion (THD) <20%. Step-dimming driver (limited programable outputs. Contact Factory). Expected driver lifetime: 100,000 hours.

ELECTRICAL: 120V or 277V prewired. Emergency to generator/ inverter wiring, internal generator transfer switch, nightlight wiring. Please note: Battery backup not available.

MOUNTING: Mounting hardware supplied by Finelite includes 1/4-20 hardware. Retention arm (bar hanger) for connection to ceiling grid or joists is by others. LED drivers are 100% accessible from below ceiling by simply lowering canopy.

FINISH: Finelite Signal White powder coat finish standard. Optional adders: 179 colors available using RAL color chart.

SUPPORT CABLE/FEED: Conductive feed/suspension cable standard. Standard suspension for 1'x1', 1'x2', 1'x3', 1'x4', and 2'x2' configurations is 18" from canopy to top of luminaire. Standard suspension for 2'x3', 2'x4', 3'x3', 3'x4', and 4'x4' configurations is 24". Contact factory for additional lengths.

STANDARD CONFIGURATIONS: Available in 1'x1', 1'x2', 1'x3', 1'x4', 2'x2', 2'x3', 2'x4', 3'x3', 3'x4', and 4'x4' configurations.

WEIGHT: 2'x2' E1-I weighs 6 lbs (including power supply).

LABELS: Luminaire and electrical components are ETL-listed conforming to UL 1598 in the U.S.A. and CAN/CSA C22.2 No. 250.0 in Canada. In accordance with NEC Code 410.130 (G), this luminaire contains an internal driver disconnect. UL 924 and UL 2108 - PoE options available on request, contact factory for more details. Damp Location. Power supply boxes are IC Rated and Chicago Plenum approved. Finelite products use electronic components that are RoHS compliant, and the mechanical components of the luminaire have been verified to not knowingly contain any restricted substances listed per RoHS Directive (EU) 2015/863. Finelite makes the specification process easy when putting healthier products on your projects. Simply add - RLD (Red List Declared Label) to your part number.

WARRANTY: E1-I C comes standard with a 10-year performance-based warranty on all components.
