High Performance Recessed Streamline
## HPR-SL

HPR Streamline is the next chapter in high-performance recessed luminaires. Built on the success of our HPR line, HPR-SL takes lighting solutions to a new level with its superior efficacy. Its advanced optical design, exceptional quality, and ease of installation make HPR-SL a great solution for a wide variety of project goals and scopes.

HPR-SL

SPECIFICATIONS

BODY TYPE

CONSTRUCTION: Die-formed 24-gauge cold-rolled steel housing. All components are hard-tooled to tolerances of +/- 0.010". Lift and shift center lens provides easy access to light arrays and driver compartment for servicing from below. Seismic brackets are integrated into the luminaire assembly.

ARRAY TYPE

LIGHT OUTPUT: Four lumen packages available, Standard (**S**), Boosted Standard (**B**), High (**H**) and Very High (**V**). A separate chart summarizes lumen distribution and wattage. Light engines are replaceable.

MECHANICAL FEATURES

OPTICAL SYSTEM: Components include diffuser panels and a central optic element held in place with a frame constructed from die-formed cold-rolled steel. The diffusers are UV-stabilized and impact-resistant frosted virgin acrylic; approximately 0.06" thick; angled toward center optic. The center rails are approximately 5/16" wide. Rail to rail distance as follows: **1×4:** 2-3/4" (71.88mm) wide and **2×2/2×4:** 5-1/4" (131.53mm) wide.

CENTER OPTIC OPTIONS: Diffuse Center Optic **(DCO)** available with Angled Narrow Rail (**ANR**)*:* UV-stabilized and impact resistant frosted virgin acrylic.

LUMEN MAINTENANCE: 90% of initial light output (L90) at 100,000+ hours; 70% of initial light output (L70) at 200,000+ hours.

REFLECTORS: Reflectors are finished in 96LG high reflectance matte white powder coat paint.

ELECTRICAL FEATURES

STATIC FEED: Optional whips supplied in a maximum of 6' lengths. Lead Wires.

MOUNTING TYPE

RECESSED: Standard flange design works with most lay-in ceiling types. Integral pry-out tabs secure the luminaire to the ceiling grid from above. Tie-in locations for tie-wire on all corners. Consult local code for appropriate tie-wire recommendations. Drywall Kit available for hard ceiling types.

OTHER OPTIONS

EMERGENCY STYLE: Factory-choice low-profile backup battery available.

Backup Battery	
	Legrand 10W/ Bodine BSL310LP
HPR-SL 1x4	
Angled Narrow Rail	1432
HPR-SL 2x2	
Angled Narrow Rail	1520
HPR-SL 2x4	
Angled Narrow Rail	1581

NOTE: The lumens are based on 835. For other CCT/CRI, refer to the Lumen Adjustment Factor table on page 7.

FINISHES: Housing assembly painted with 96 LG high reflectance matte white powder coat paint. Post paint.

LABELS: Luminaire and electrical components are UL listed conforming to UL 1598 in the U.S.A. and CAN/CSA C22.2 No. 250.0 in Canada. In accordance with NEC Code 410.130 (G), this luminaire contains an internal driver disconnect. UL 924 options available on request. These fixtures are rated for Damp Location and are IC-rated. Finelite products use electronic components that are RoHS compliant, and the mechanical components of the luminaire have been verified to not knowingly contain any restricted substances listed per RoHS Directive 2015/863. HPR-SL can be used to comply with CEC 2016 Title 24, Part 6 (JA8); high efficacy LED light source requirements.

WEIGHT:
– **1×4:** 16 lbs maximum.
– **2×2:** 14 lbs maximum.
– **2×4:** 23 lbs maximum.

10-YEAR WARRANTY: 10-year performance-based warranty on Standard **(S)**, Boosted Standard **(B)**, and High (**H**), and Very High Output **(V)** with all standard components. All "Control Options" have a 10-year individual manufacturer warranty.
