DIE-FORMED PERFECTION AT AFFORDABLE PRICES

Style, quality, and performance all come together in Finelite's Series 1 at truly affordable prices. Straight rows are assured by Finelite's steel die-formed interlocking aligner bracket. Tolerances are held to 0.005". Fixtures are pretested at the factory, and all row fixtures are supplied with pre-installed electrical quick connect mating plugs. Fixtures installed on-grid are supplied with all necessary hardware, including the T-Bar clips. Installation is faster than with any other type of approved mounting method, lowering the project cost.

Fixtures can be supplied from the factory pre-lamped, and every fixture is shipped in a protective plastic sleeve to keep it clean until project completion. Standard support cable is stainless steel, supplied with plated hardware. Semi-adjustable and fully adjustable lengths available. Finelite White is standard, 185 additional finishes using Tiger Drylac's RAL color chart are available as an option. Dimming ballasts, integrated motion sensors and other options are available.

Finelite's Series 1 brings 100% indirect lighting to any room in a stylish fixture that combines high performance, die-formed excellence, and installation ease at truly affordable prices.
