

FINELITE

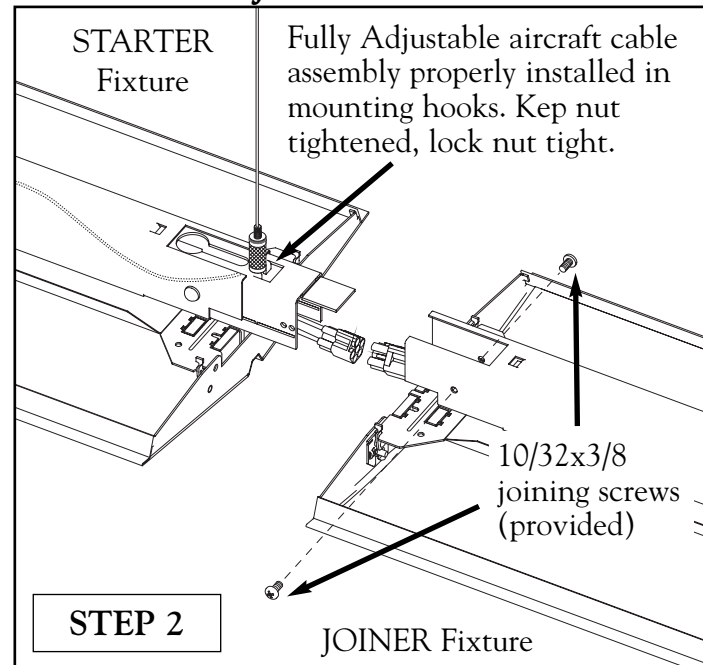

Series 15 Joining Instructions (Fully Adjustable Cable)*

DO NOT attempt to join fixtures together on the floor. Damage may result when lifted. Follow these instructions.

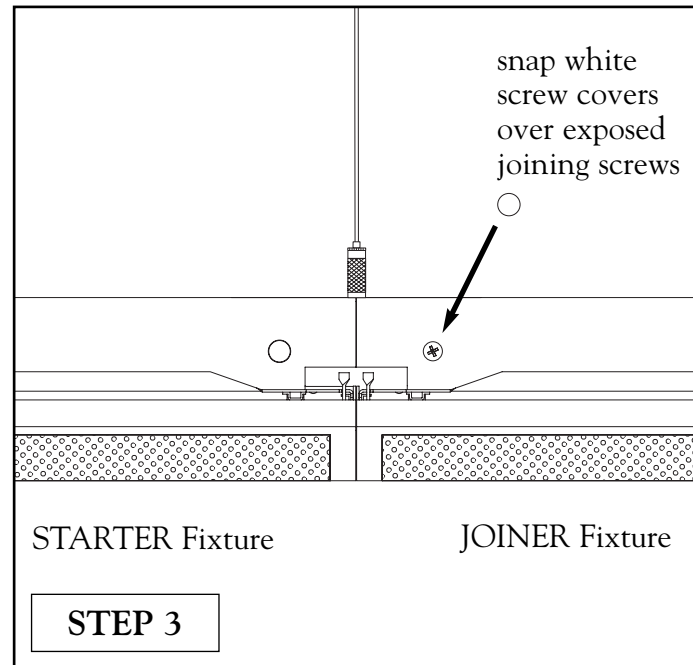

HANG STARTER FIXTURE

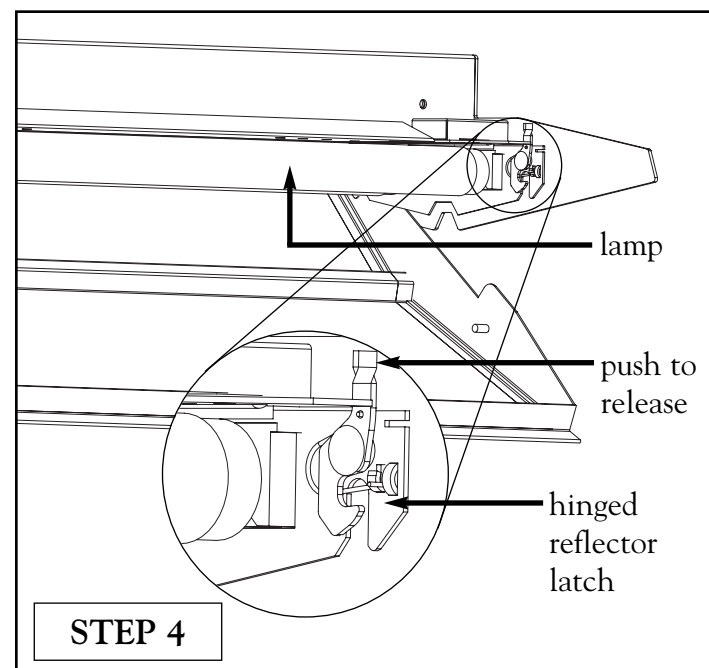

HANG AND JOIN FIXTURES

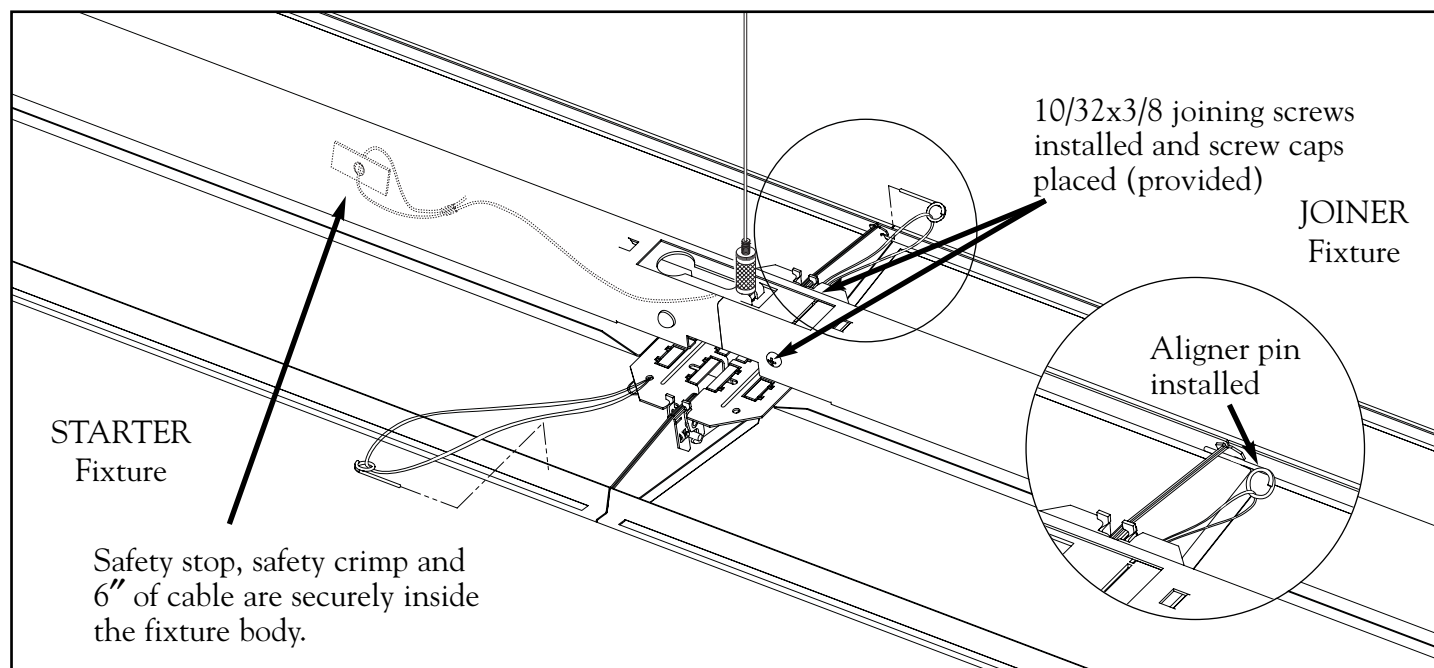

COVER EXPOSED SCREWS

INSTALL LAMPS

FINAL CHECK

INSTRUCTIONS

STEP 1. Hang STARTER fixture by placing bottom kep nut of aircraft cable assembly under mounting hook at endcap end, rotate up to sit securely on mounting hook, tighten securely (avoid over-tightening). Install safety stop and safety crimp according to S15 FA instruction sheet. Repeat with aircraft cable assembly at joining end.

STEP 2. Hang far end of JOINER fixture while supporting both ends. Connect plug together wiring between STARTER fixture and JOINER fixture. Push fixtures together. Secure fixtures together with two 10/32x3/8 screws (provided).

STEP 3. Cover joiner screws with white caps provided (2 per joint).

STEP 4. Install lamps by depressing latch that rotates hinged reflector assembly to expose lamp holders. NOTE - Omitted if lamps were supplied by Finelite.

FINAL CHECK

- Aircraft cable assembly sits securely on mounting hook, bottom kep nut is tight.
- Safety Stop and 6" of aircraft is securely inside fixture body.
- Plug together wiring is connected.
- Two 10/32x3/8 joiner screws have been installed.
- Screw covers placed on joiner screws.
- Insert aligner pins into holes on edge of basket

Repeat for remaining JOINER and ENDER fixtures to complete row.
