HP-4 Accent Lighting Housing Addendum

Overview

NOTES

- This addendum applies to HP-4 Accent Lighting Downlight.
- All power connections should be installed according to local/national codes by a Certified Electrician.
- This installation requires proper support as each luminaire is being installed.
- DO NOT attempt to join luminaires together on the floor. Damage may result when lifted.

**Step 1 - Remove Accent Lighting at Endcap; Surface Mount, Spackle & Visible Flange Only**

- Once backplates are open, release accent lighting assembly by gently sliding the blade of a putty knife between accent lighting assembly and luminaire body.
- Slide accent lighting assembly approximately 12 inches away from endcap.
- If necessary, remove accent lighting assembly from luminaire by snapping out and lifting up.
- NOTE: accent lighting assembly does not need to be removed if accent lighting wires are already accessible.
- Disconnect accent lighting wires.
- Refer back to Luminaire Installation Instructions: Mounting Starter to Structure.
