Edge

Undercabinet *by Finelite™*

The energy-efficient Edge *by Finelite™* creates the ideal visual balance for your space using the latest LED technology.

Edge *by Finelite™* creates the ideal visual balance for your space using the latest LED technology. It delivers the right amount of task illumination for a fraction of the energy required by conventional undercabinet luminaires. Use it to create pleasant and sustainable work areas that allow the occupant to be in control.

Innovative *features*

- Complies with the Buy American Act of 2009
- Part of the PLS family of products
- Up to 62 lumens per watt
- Effective cable management hardware
- Complies with FCC requirements for commercial and residential use
- 3500K warm white LEDs
- Replaceable LED assembly
- 5 year, worry-free warranty

Powerful Magnets
Powerful rare earth magnets allow for easy, yet secure mounting to metal surfaces.

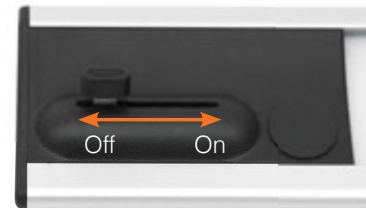

NEW

Diffuser

Frosted diffuser covers the LEDs for improved distribution, minimizes multiple shadow effects, and is easy to clean for applications requiring periodic wipe down.

LED

NEW

On-Board Dimming To Off

Edge comes equipped with individual dimming to off on each luminaire.

Power Supplies

Available with 8W, 21W, or 60W power supplies to meet a variety of application needs. Edge is ENERGY STAR® qualified when using one 22" unit or two 12" units on an 8W power supply.

21W and 60W

8W

Occupancy Sensor

Reduce plug-load even further using the optional occupancy sensor which turns off all luminaires connected to the 21W or 60W power supply when the space is unoccupied.

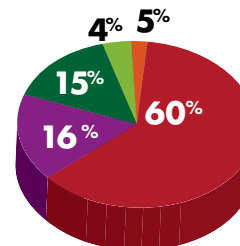

Cable Management

Fixtures can be mounted to steel or wood for easy cable management.

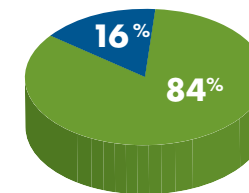

84% Recyclable

84% Recyclable Content

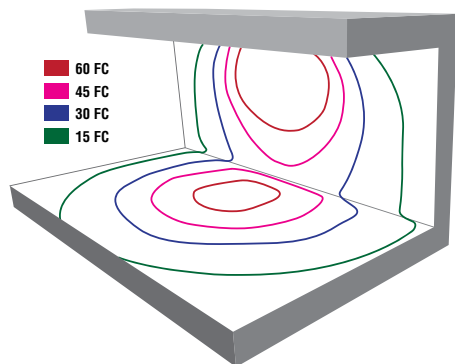

Recycled = ■
Non-Recycled = ■

Edge components are constructed from aluminum, copper, steel, electronic, and plastic. Edge by Finelite is 84% recyclable at the end of useful life.

Performance

Superior lateral throw provides proper illumination over a wide area. Example above: 22" unit installed on a 4' binder bin. One 22" Edge provides ample illumination beneath a 4' binder area.

(For additional output specify a 45" luminaire rather than two 22" luminaires.)

Technical Specifications

- Efficacy (Lumens per Watt): 22": 62.2 / 12": 48.9
- Light Output (Lumens): 22": 380 / 12": 196
- Power Consumption: 22": 6.1W / 12": 4W
- Color Temperature: 3500K
- Color Rendering (CRI): 87
- R9 Value: 22": 32 / 12": 34
- L_{90} : Rated for 100,000 hours to 90% of initial lumens*
- LM-79 tested and LM-80 data is available
- Complies with FCC requirements for commercial and residential use
- Compatible with Personal Lighting System (PLS)
- End of life statement: 84% recyclable at the end of its useful life
- ETL Listed
- RoHS Compliant

* L_{90} lifetime is estimated by the LED manufacturer based on independent testing of the Edge luminaire.
