

Reach

LED Desk Lamp
by Finelite™

Exceptional Flexibility. Breakthrough Performance.

The Reach *glides*

The Reach Performs

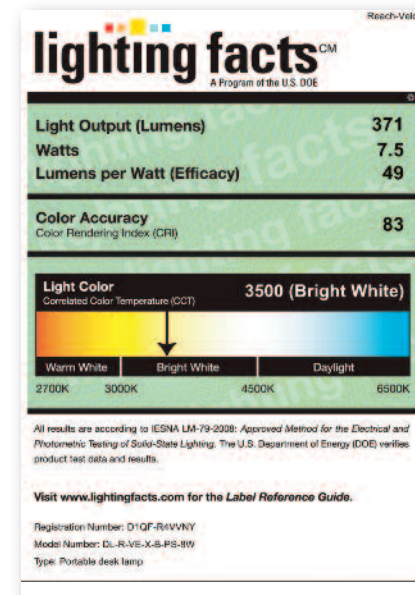

The Reach **Adapts**

LED task lighting for today's changing workplace.

Lighting Facts Label

Finelite is a manufacturer partner of the DOE's SSL Quality Advocates program.

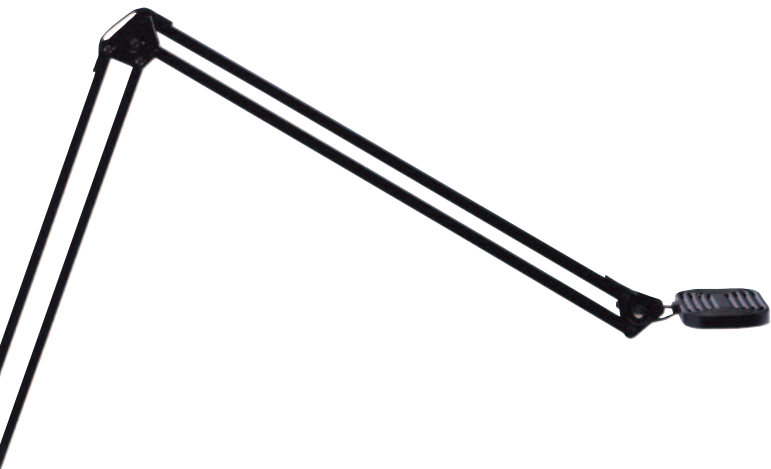

Award-winning technology

Reach uses the same award-winning light engine as the **Curve** LED desk lamp, with added flexibility.

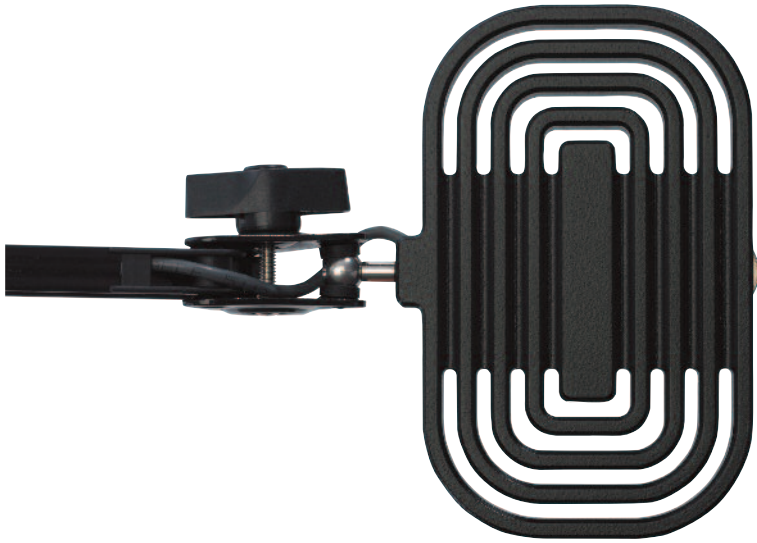

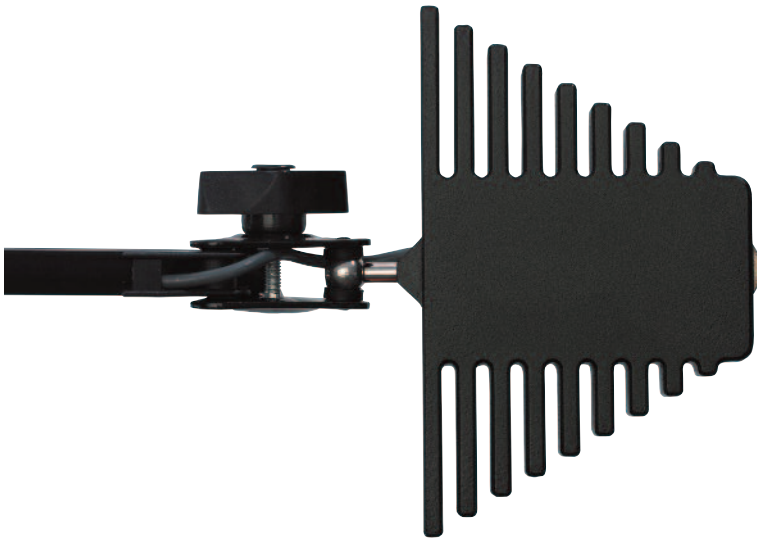

Innovative *features*

- Full range dimming to 5%
- Delivers 49 lumens per watt
- 371 total lumens
- LM-79 and LM-80 data available
- State of the art LED array
- Buy American Act of 2009 compliant
- 5 year, worry-free warranty

Information based on Velo head design

*Velo**Viper*

Selection

Reach is available with a choice of two distinct styles. Velo and Viper. Both are available with 12" or 18" arms.

Flexibility

Double link arms smoothly position light on the desk without the need to readjust hardware.

Durability

Replaceable LED Module

Reach's LED module is easy to replace..The State of the Art LEDs are precisely binned for color and brightness matching.

QuickTouch™ Dimming

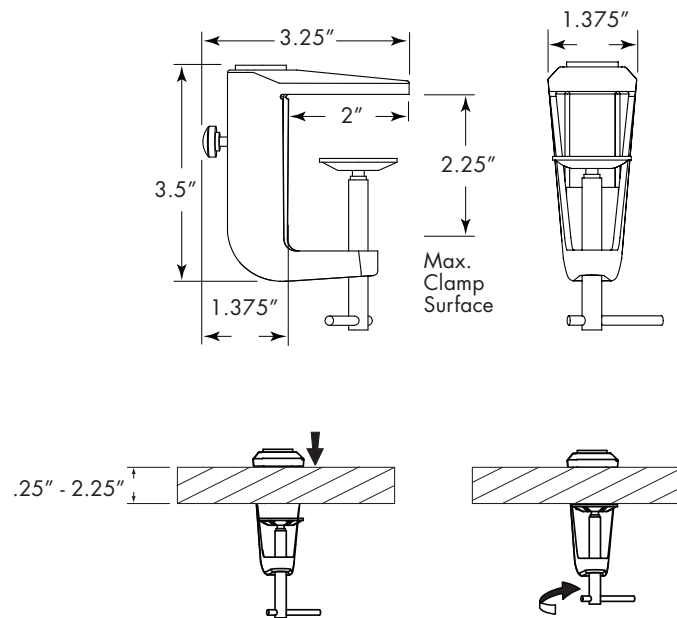

The QuickTouch dimmer is easy to use and was designed without a hard stop for durability. Scroll left or right to adjust the amount of light on your desk.

Mounting

Reach's desk clamp is standard and secures to desks up to 2.25" thick.

Power Supply

Reach's 8W power supply draws no power in off-state.

5 Year Warranty

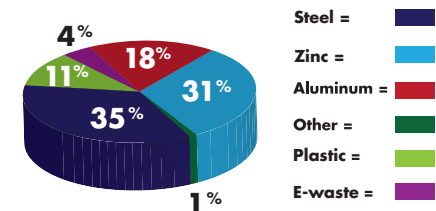

Finelite warranties all Reach components (including desk lamp and power supply) to be free from defects in materials and workmanship for a period of 5 years.

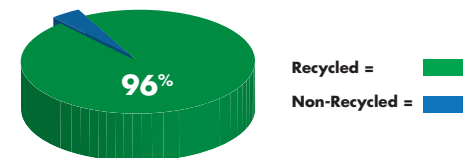

Sustainability

Reach components are constructed from aluminum, zinc, steel, electronics, and plastic. Reach is 96% recyclable at the end of useful life.

96% Recyclable

96% Recycled Content

Powerful as a Team

Reach can be used as a stand alone luminaire or integrated with the Personal Lighting System (PLS).

Details

Technical Specifications

- Power consumption: 8W max.
- Light output (Lumens): Velo: 371 / Viper: 359
- Efficacy: (Lumens per Watt): Velo: 49.5 / Viper: 47.9
- Color temperature: 3500K
- Color rendering: (CRI): Velo: 83 / Viper: 82
- L_{70} : Rated for 100,000 hours to 70% of initial lumens*
