# High Performance 2" Aperture (HP-2 WS) Perimeter Slot

Inside Corner Shown

HP-2 WS Perimeter Slot provides ultimate flexibility for perimeter lighting with exact fit tailored lengths or optional adjustable telescoping sections. Prebuilt, fully-illuminated 90° inside and outside corners add to its clean aesthetics. HP-2 WS Perimeter Slot delivers excellent performance using an advanced optical design and mid-power LEDs. Achieving 90% of initial light output at 60,000+ hours and backed by a 10-year performance-based warranty on all standard components. An all-in-one box shipping approach to reduce labor and streamline installation.

This product is enrolled in the International Living Future Institute (ILFI) Declare 2.0 Program and is third-party verified with options achieving **Red List Approved** and **Red List Declared** status.

**Note:** see page 6 for all aesthetic options

## FEATURES

Fully illuminated, factory built all-in-one box shipping plug-together inside and outside corners for easy installation.

Provide exact wall dimensions and we will deliver precisely down to 1/16" or optional adjustable telescoping (TXL) sections adaptable to on-site dimension.

# High Performance 2" Aperture (HP-2 WS) Perimeter Slot

## SPECIFICATIONS

### BODY TYPE

**CONSTRUCTION:** Precision-cut 6063-T6 extruded aluminum body. Internal joiner system and plug-together wiring are standard.

**LENGTHS:** Any length, 2' minimum, in increments down to 1/16th" ( $\pm 1/32$ "). 12' maximum section length. Telescoping (TXL) Minimum run length with Std. EldoLED drivers: 4'-1" adjustable to 5'-0". Telescoping (TXL) Minimum run length with all other drivers: 5'-1" adjustable to 6'-0". Max single section length with TXL adjustable from 11'-1" to 12'-0". Just one optional TXL provides fully illuminated adjustability of up to 11". Choose TXL-L(Left), TXL-M (Middle), or TXL-R(Right).

**PRE-BUILT 90 DEGREE CORNERS<sup>1</sup>:** Fully illuminated 90 degree inside and outside corners available. Pre-built corners account for 2' of wall length for both inside and outside corners. Consult factory for non-90 degree corners.

### OUTPUT AND LED TYPE

**LIGHT OUTPUT:** Four lumen packages available, Standard (S), Boosted Standard (B), High (H), and Very High (V). For Tailored Outputs outside of range from Standard (S) to Very High (V), consult factory. Light engines are replaceable.

### MECHANICAL/OPTICAL OPTIONS

**DOWNLIGHT OPTION:** 12' maximum diffuser length. Flush frost white snap-in diffuser standard, 83% transmissive, 99% diffusion. Internal secondary diffusers at corners ensure visually seamless, uniform, continuous illumination.

**LUMEN MAINTENANCE:** 90% of initial light output (L90) at 60,000+ hours.

**REFLECTORS:** Die-formed 20-gauge cold-rolled steel reflectors finished in 96LG High Reflectance white powder coat paint.

### ELECTRICAL OPTIONS

**STATIC WHITE FEED:** Standard with one 18-gauge/5-conductor single-circuit feed wire controlling downlight (power and dimming). 14-gauge feed wire used when luminaire current exceeds 5 amps. Telescoping section available with end feed only.

**TUNABLE WHITE FEED:** Standard with one 18-gauge/5-conductor single-circuit feed. 14-gauge feed used when luminaire current exceeds 5 amps. DMX feeds cannot be cut or spliced. DMX feeds should be ordered based on fixed lengths.

#### 0-10V:

- One 18-gauge / 3-conductor power
- One 18-gauge / 4-conductor for dimming and controls

#### Dali:

- One 18-gauge / 5-conductor power and controls

#### DMX:

- One 18-gauge / 3-conductor power
- One DMX feed

**STATIC WHITE DRIVER:** Replaceable 120V, 277V, and 347V constant current reduction dimming driver standard. Can be wired dimming or non-dimming. 0-10V dimming controls with a range of 10%- 100% standard. Dimming to 1% available. Separate dimming for uplight and downlight available. Driver is fully accessible from below the ceiling.

- **Power Factor:**  $\geq 0.9$

- **Total Harmonic Distortion (THD):** <20%

- **Expected Driver Lifetime:** 100,000 hours

### LUTRON DRIVER OPTIONS:

**LUT-ES1** - Hi-lume 1% EcoSystem with Soft-On, Fade-to-Black dimming (LDE1 series).

**TUNABLE WHITE DRIVER:** Replaceable LED driver. Driver is accessible from below the ceiling. 120V, 277V, and 347V.

- **Power Factor:**  $\geq 0.9$

- **Total Harmonic Distortion (THD):** <20%

- **Dimming Range:** 100%-10%

- **Expected Driver Lifetime:** 100,000 hours

### LUTRON TUNABLE WHITE DRIVER OPTION:

**LUT-TW** - Lutron LD2 Dali-2 1% Tunable White.

### MOUNTING OPTIONS

**HANGING HARDWARE:** Threaded Rod (TR) option eliminates the need to install luminaires prior to the slot being framed. Luminaire mounts on threaded rods. Gasket runs length of luminaire ensuring a clean finish at the wall. Optional mounting includes a wall bracket that is attached to the wall. Luminaires are then snapped onto the bracket. Luminaire installation that uses the mounting bracket must be performed before the perimeter slot framing is built. Blocking may be required to properly secure and position the luminaire. Be sure to allow room for finished wall materials such as stone, tile etc. Refer to details on page 7.

**TUNABLE WHITE DMX INTERCONNECTION CABLES:** Luminaires are prewired with plug-and-play interconnected cables to support easy plug-together joining of fixture runs. DMX to RJ45 adapters and an RJ45 terminator for every 32 DMX drivers are included.

### OTHER OPTIONS

**END CONDITIONS:** Flat end condition (**FE-L & FE-R**)<sup>1</sup> at each end of run add 1/8" to each end of luminaire and are used when luminaire terminates at a vertical surface such as a finished wall. Pocket slot end condition (**PE-L & PE-R**)<sup>1</sup> to end and are used when slot terminates before meeting additional vertical wall surface. Includes the necessary hardware to accommodate ceiling materials when the luminaire doesn't terminate at a wall. Adds 1-1/4" for Spackle Flange and 1" for T-Bar per endcap to overall length of the luminaire.

\* Minimum luminaire housing length for battery pack approved without sensor  
 \*\* Exception: 5' not available, 6'+ okay  
 The lumens are based on 835. For other CCT/CRI, refer to the Lumen Adjustment Factor table on page 10.

### TUNABLE WHITE ELECTRICAL OPTIONS<sup>6</sup>:

#### TW Driver Options

- **0-10V:** EM/GEN, GTD or Battery Back Up
- **DMX:** Battery Back Up
- **DALI:** EM/GEN, GTD or Battery Back Up
- **LUTRON:** EM/GEN, GTD or Battery Back Up

**REMOTE SENSORS:** Remote mounted PIR (Passive Infrared) occupancy or daylight sensors available. Refer to Occupancy Sensor & Daylight Sensor tech sheet and the Embedded Intelligence landing page for more information and additional sensor options.

**FINISHES:** Finelite Signal White (**SW**) powder coat finish standard. Optional Adder: 179 RAL colors<sup>2</sup> are available. Custom color applies to the visible T-Bar flange.

**LABELS:** Luminaire and electrical components are ETL-listed conforming to UL 1598 in the U.S.A. and CAN/CSA C22.2 No. 250.0 in Canada. In accordance with NEC Code 410.130 (G), this luminaire contains an internal driver disconnect. UL 924 and UL 2108 - PoE options available on request. These luminaires are rated for Damp Location. IC Rated. Finelite products use electronic components that are RoHS compliant, and the mechanical components of the luminaire have been verified to not knowingly contain any restricted substances listed per RoHS Directive 2015/863. Consult factory for tailored lighting options. Finelite makes the specification process easy when putting healthier products on your projects. Simply add – **RLA** (Red List Approved) or – **RLD** (Red List Declared) to your part number.

**WEIGHT<sup>8</sup>:** Wall Mount T-Bar: 4.6 lb/ft; Wall Mount SF: 4.4 lb/ft; Threaded-Rod T-Bar: 3.1 lb/ft; Threaded-Rod SF: 2.9 lb/ft

**WARRANTY:** 10-year performance-based warranty on all standard components. Optional accessories such as emergency battery packs are covered by their individual manufacturer warranties.

**Note:** Not recommended for mounting directly above the mirror

<sup>1</sup> Minimum 3' body section length when using standard Finelite EldoLED drivers. Minimum 4' body section length when using other drivers

<sup>2</sup> 20 business days lead time for color

# High Performance 2" Aperture (HP-2 WS) Perimeter Slot

## TELESCOPING

One telescoping (TXL) provides on-site flexibility with up to 11" of adjustability, and can be specified on either end of a run. Telescope adds a minimum of 1" and maximum of 12" to the run length provided. Max single section length with TXL adjustable from 11'-1" to 12'-0". Offered with flat endcap (standard) or pocketslot endcap.

SF WM Telescoping Shown

## POWER FEED

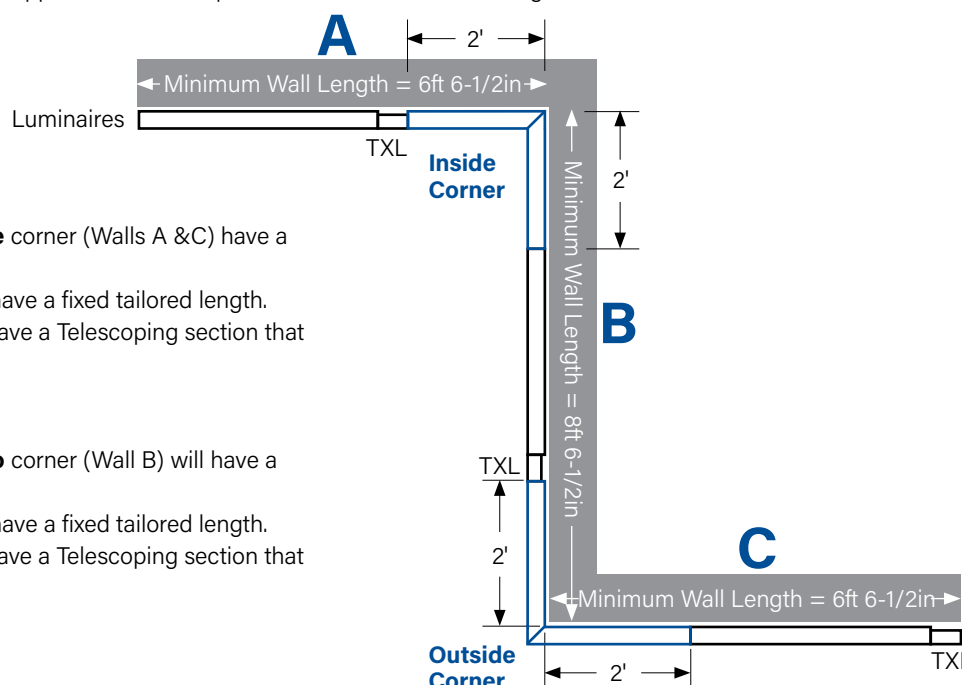

Top feed is standard. Top feed not available on a section with telescoping

End feed options

## CONFIGURATIONS WITH PRE-BUILT CORNERS AND TELESCOPING

The example below demonstrates the target minimum wall length requirements for a configuration with pre-built 90 degree corners and telescoping. Consult factory for applications that require shorter than minimum lengths than shown below.

For configurations, wall segments with **One** corner (Walls A & C) have a minimum wall length of 4'.

- Wall lengths between 4' to 6' 6-7/16" will have a fixed tailored length.
- Wall lengths of 6' 6-1/2" and greater will have a Telescoping section that provides +/- 5-1/2" of adjustability

For configurations, wall segments with **Two** corner (Wall B) will have a minimum wall length of 6'.

- Wall lengths between 6' to 8' 6-7/16" will have a fixed tailored length.
- Wall lengths of 8' 6-1/2" and greater will have a Telescoping section that provides +/- 5-1/2" of adjustability

## ENDCAP OPTIONS

### Standard Flat (FE-L or FE-R)

Add 1/8" per endcap to the section length. Spackle Flange version shown T-Bar available. Flat end condition for when luminaire terminates at a vertical surface such as a finished wall.

### Endcap Information

The **Flat Endcap** adds 1/8" per endcap to the section length.

The **Pocket Slot Endcap** adds 1-1/4" for Spackle Flange and 1" for T-Bar per endcap to the section length.

**Example:** Overall Luminaire Length = Luminaire Section + Endcap + Endcap  
 $11' - 3 - 1/2'' = 11' - 3 - 1/4'' + 1/8'' + 1/8''$

### Pocket Slot (PE-L or PE-R)

Adds 1-1/4" for Spackle Flange and 1" for T-Bar (includes endcap dimension 1/8") per endcap to the housing length on shop drawings T-Bar version shown, Spackle Flange available.

# 0-10V Tunable White

Finelite's contractor friendly Tunable White luminaires are available at low cost, with powerful and simple 0-10V tuning and intensity controls.

## TUNABLE WHITE FEATURES

- CCT range: 2700K - 6500K
- Dimming Range: 100% to 10%
- CRI Options: 80 CRI or 90 CRI

**Note:**

Dim to Off options available.

## LUMINAIRE FAMILY MODIFICATIONS/RESTRICTIONS

Direct	Section Lengths										
	2'	3'	4'	5'	6'	7'	8'	9'	10'	11'	12'
Output S,B,H,V Single Circuit	Rows can be comprised of 2'-12' sections. Tailored lengths available.										
Integral Battery Backup (BSL310LP)							✓		✓		✓

## PHOTOMETRY

Apply a power adjustment factor to calculate wattage usage

POWER	CONVERSION FACTOR
	<b>1.1X</b>

(Example: a 50 watt luminaire in static white would draw 55 watts using 0-10V Tunable White)
