

# Finelite Products Comply with the Buy American Act of 2009

The Buy American Act “restricts the purchase of supplies that are not domestic end products, for use within the United States”, and uses a two-part test to define a domestic end product:

- The product must be manufactured in the United States, and
- The cost of the domestic components must exceed 50% of the total cost of components.

Finelite’s luminaires have always met these requirements. In fact, we maximize our sustainability efforts by locating the majority of our manufacturing partners within a 500-mile radius of our manufacturing location.
